

TO WHOM IT MAY CONCERN

October 01, 2013

This serves to testify that Mosmart Investments Namibia was a client of B2Gold Namibia.

Mosmart Investments Namibia has supplied dust suppression services to B2Gold Namibia Otjikoto Project over the past 6 months in 2013. Their scope of service included $\pm 100\,000$ m² of surface road network as well as the supply of two water tankers on shift to supplement the dust suppression requirements.

Their conduct has been very professional and they have delivered the service to expectations.

It is my pleasure to endorse and recommend them as valued contributors to a project.

Sincerely

Gerson RJ Shipena

Mining Manager

B2Gold Namibia - Otjikoto Mine
